

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

Claims 1-11 (canceled).

Claim 12 (currently amended): A hard gelatine capsule containing a pharmaceutical composition comprising:

- a) cyclosporin A,
- b) a surfactant of HLB value of at least 10 comprising a reaction product of natural or hydrogenated vegetable oil and ethylene glycol, and
- c) a hydrophilic phase comprising a polyethylene glycol and at least one lower alkanol selected from ethanol and propylene glycol, wherein each lower alkanol present is present in an amount of less than 12 % of the total weight of the composition disregarding the hard gelatine capsule,

~~the composition being substantially free of any additional oil~~ wherein less than 5% of oils apart from those present in the surfactant, are present in the composition.

Claim 13 (currently amended): A hard gelatine capsule as defined in claim [[1]] 12 wherein the lower alkanol comprises ethanol.

Claim 14 (currently amended): A hard gelatine capsule as defined in claim [[1]] 12 wherein the lower alkanol comprises propylene glycol.

Claim 15 (currently amended): A hard gelatine capsule as defined in claim [[1]] 12 wherein the lower alkanol comprises ethanol and propylene glycol.

Claim 16 (currently amended): A hard gelatine capsule according to claim [[1]] 12 wherein cyclosporin is present in an amount of from 5 to 30 % by weight based on the total weight of the composition disregarding the hard gelatine capsule.

Claim 17 (currently amended): A hard gelatine capsule according to claim [[1]] 12 wherein the polyethylene glycol is liquid when heated to 37° C.

Claim 18 (currently amended): A hard gelatine capsule according to claim [[1]] 12 wherein the polyethylene glycol has a M.W. of 200 to 600 daltons.

Claim 19 (currently amended): A hard gelatine capsule according to claim [[1]] 12 wherein the polyethylene glycol is present in an amount of from 1 to 40 % by weight based on the total weight of the composition disregarding the hard gelatine capsule.

Claim 20 (previously presented): A hard gelatine capsule as defined in claim 17 or 18 wherein the pharmaceutical composition is semi-solid with the cyclosporin dissolved therein.

Claim 21 (previously presented): A hard gelatine capsule as defined in claim 17 or 18 wherein the pharmaceutical composition is liquid with the cyclosporin dissolved therein.

Claim 22 (currently amended): A hard gelatine capsule according to claim [[1]]
12 wherein the pharmaceutical composition forms on dilution with water a micellar
solution.

Claim 23 (previously presented): A hard gelatine capsule as defined in claim 22
wherein the micellar solution comprises droplets of a size from 10 to 150 nm.

Claim 24 (currently amended): A hard gelatine capsule according to claim [[1]]
12 wherein each lower alkanol present is present in an amount of from 8 to less than 10
% of the total weight of the composition disregarding the hard gelatine capsule.

Claim 25 (canceled)

Claim 26 (currently amended): A hard gelatine capsule according to claim [[1]]
12 capable of providing microemulsion systems in situ.
